About Me

As a Frontend developer, I have experience creating and maintaining user-facing web applications using HTML, CSS, JavaScript and React. I have a strong understanding of responsive design, cross-browser compatibility, and web accessibility standards.
I have worked collaboratively with other developers, designers, and stakeholders to ensure that websites meet client and user requirements. I am committed to writing clean, efficient, and well-documented code, and staying up-to-date with the latest frontend development technologies and trends.
